T DASH XL

Update your T DASH XL

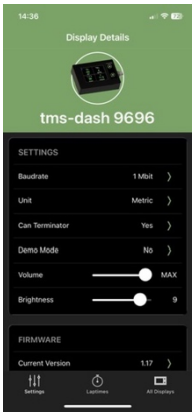

1. If you do not have the T DASH app installed, download it from the App Store or Google Play. Search for "TDash TMS" or scan the QR code.

IOS **ANDROID**

2. Power on the T DASH and keep your smartphone close to the T DASH.

3. 

Open the T DASH app and select your T DASH. A PIN code will appear on the T DASH display. Enter this code when requested by the app.

4. 

Open Settings and scroll down to FIRMWARE. Tap the current firmware version.

5. 

Tap "Download and install" to start the update.

Do not switch off the T DASH during the update. Keep your phone within 20 cm of the T DASH. The update may take up to 15 minutes.

6. When the update is complete, the T DASH will restart automatically. Check the firmware version shown during startup to confirm that the update was successful.
